

Press Release:

May 27, 2016

Altaro signs up Drulogic Technologies as its Distribution partner for India

Altaro Software, a fast-growing developer of easy to use and affordable virtualization backup solutions for Hyper-V and VMware for small- to medium-sized businesses, specializing in backup for virtualized environments, today appoints Drulogic Technologies, a startup distribution company from Mumbai, India, as its distributor for the Indian Market.

This partnership allows Drulogic Technologies to begin selling Altaro VM Backup Solutions for both Hyper V and VMware, Backup FS (server backup solution) and Oops!Backup (desktop backup solution) to small and mid-sized businesses in India. These cost-efficient backup solutions leverage ReverseDelta™ technology which only saves the changes between each version of the altered files, rather than backing up the whole file every time it changes. This innovative technology from Altaro ultimately decreases the amount of required space on your backup drive.

"This strategic partnership with Altaro allows Drulogic Technologies to deliver this crucial technology to budget-conscious customers in India.

About Altaro Software:

Founded in 2009, Altaro Software is a fast-growing developer of user-friendly backup solutions aimed at SMBs. Based in Malta, Europe, Altaro employs an enthusiastic team who understands that one way to innovate continuous data protection (CDP) technology is by taking a step back from the implementation details to understand the customer's objectives, requirements and resources. Altaro's products including Oops!Backup, Backup FS and Hyper-V Backup are available worldwide from Altaro and its network of value added resellers.
