

Press Release:

AlienVault Partners with Drulogic Technologies to Deliver “Unified Security Management (USM) solutions

AlienVault selects Drulogic Technologies to deliver a Unified Security for Real Time Threat Detection and intelligent Incident Response.

Mumbai, India - April 14, 2017 – AlienVault the market leader in providing unified security management with the best in class SIEM tool, announced a partnership with Drulogic Technologies, a leading IT distributor to deliver SIEM (Security information and event management), vulnerability assessment (VA), asset discovery, network and host intrusion detection (NIDS/HIDS), flow and packet capture, and file integrity monitoring (FIM) to its customers in India.

By partnering with AlienVault, Drulogic Technologies joins the select global list of partners, providing a variety of integrated security capabilities, including SIEM, file integrity monitoring, vulnerability assessment, asset discovery, and both host-based and network-based intrusion detection systems, that is a game-changer.

"Our partnership with AlienVault would provide Indian companies, access to a broad set of integrated security capabilities at relatively low cost for on-premises and cloud environments." said Pankaj Sharma, CEO of Drulogic Technologies.

"AlienVault is a Visionary with a game changing technology, that offers real time threat detection and intelligent response" said Michael LaPeters – VP, Worldwide Channel Sales of AlienVault. "We are excited to partner with Drulogic Technologies and offer our unified security management capabilities that is affordable and more capable compared with products from most competitors in the SIEM space, and meets the market demand and expectations."

About AlienVault:

ALIEN VAULT

AlienVault is the leading provider of Unified Security Management and crowd-sourced threat intelligence required to detect and act on today's advanced threats.

AlienVault's products are designed and priced to ensure that mid-market organizations can effectively defend themselves against today's advanced threats. By building the best open source security tools into one Unified Security Management™ platform, and then powering the platform with up-to-the-minute threat intelligence from AlienVault Labs and our Open Threat Exchange™ – the world's largest crowd-sourced collaborative threat exchange – AlienVault provides its more than 19,000 users, 3,000 commercial customers with a unified, simple and affordable solution for threat detection and compliance management.

Founded in 2007, the company currently employs more than 235 people worldwide, with headquarters in San Mateo, CA; offices in Austin, TX; Madrid, Spain; Granada, Spain and Cork, Ireland. The company's seasoned management team is led by President and CEO, Barmak Meftah, an experienced leader in the security software industry.

AlienVault is a privately held company headquartered in Silicon Valley and backed by Trident Capital, Kleiner Perkins Caufield & Byers, GGV Capital, Intel Capital, Jackson Square Ventures, Adara Venture Partners, Top Tier Capital, Institutional Venture Partners and Correlation Ventures.
