

## **Drulogic Partners With Stratoscale to Deliver the Public Cloud Experience in the Enterprise Data Center**

*Drulogic Selects Stratoscale to Simplify Private Cloud Deployment and Help Customers Respond to Real-Time Needs With Greater Ease and Control*

Herzliya, Israel ([PRWEB](#)) August 15, 2016 -- [Drulogic Technologies](#), a leading IT distributor today announced a partnership with [Stratoscale](#), the cloud infrastructure company, to deliver comprehensive, flexible and scalable data center solutions to its customers in India.

Stratoscale created its 360-degree partner program, [PartnerFirst](#), with an all-inclusive approach to maximize technology, products and services and bring mutual benefits to customers and partners. By partnering with Stratoscale, Drulogic joins more than 20 global partners, providing an intuitive, powerful and beautiful experience that supports legacy applications and enterprise-grade private cloud deployments, with capabilities that are only available in web-scale environments.

“With Stratoscale’s comprehensive cloud data center software, we’re able to provide cloud capabilities that meet the IT demands of our customers requiring next-generation data center technologies,” said Pankaj Sharma, CEO at Drulogic. “Our partnership with Stratoscale helps customers embrace these technologies at a faster pace, enabling their IT departments to shrink their cloud infrastructure deployment to hours and VM, network and storage provisioning to seconds.”

Stratoscale recently announced V2 of [Stratoscale Symphony](#), the second generation of Stratoscale’s comprehensive cloud data center software, which was developed in direct response to customer demands and industry trends. V2 breaks down the silos between virtualization, networking and storage, allowing a single administrator to manage all aspects of the infrastructure, freeing valuable time to support internal customers and the business.

“Stratoscale is committed to offering our channel partners the public cloud experience through our best-in-class technology,” said Ariel Maislos, CEO of Stratoscale. “We are excited to offer Drulogic our unique set of capabilities that support cloud-scale economics on any commodity server and provide an increasingly important competitive factor for their IT teams.”

### About Drulogic

Drulogic Technologies Pvt. Ltd., is a privately held Software distribution company, headquartered in Mumbai, India, which intends to distribute and resell, a broad and deep spectrum of IT products and technology solutions through their business partners in India. They aim to source the best technology products and solutions, developed by some very innovative manufacturers from across the globe and bring them to customers and business partners in the Indian market.

Drulogic Technologies enhances the value of its position at the intersection of multiple innovative technology vendors, resellers and retail partners by customizing and delivering highly innovative and “in-demand” applications for industry verticals, business-to-business customers and commercial needs.

From provisioning solutions for system integrators working at the heart of the distribution network to offerings through the complete lifecycle of IT products & solutions, from Small and Mid-size business solutions to global

enterprise software and computing, point of sale to cloud services, Data analytics to surveillance and security —Drulogic Technologies aims to win trust of its customers to have the expertise and resources to help them define and push the boundaries beyond.
